Yes, this is the map slide. Mike is putting together 10-12 slides for a meeting with OW folks (Peter, Ron, etc. among others?). He wants to highlight several key R9 issues, one of which is CA UIC. He asked for 3 slides – map slide, simplified schedule related to shut-ins and AEs; and one other. I think the 3rd slide could cover other aspects of the work DOGGR is doing – water well risk reviews, UIC reg updates, database development, etc. I am free other than a meeting from 1-2pm.

Hi David,

Kate called me and we think this might be the slide Mike is talking about?

Yes, I had no idea who the audience is, she said it's the Division Director meeting. That helps but yes, I really don't know what the point of the presentation is.

What about this:

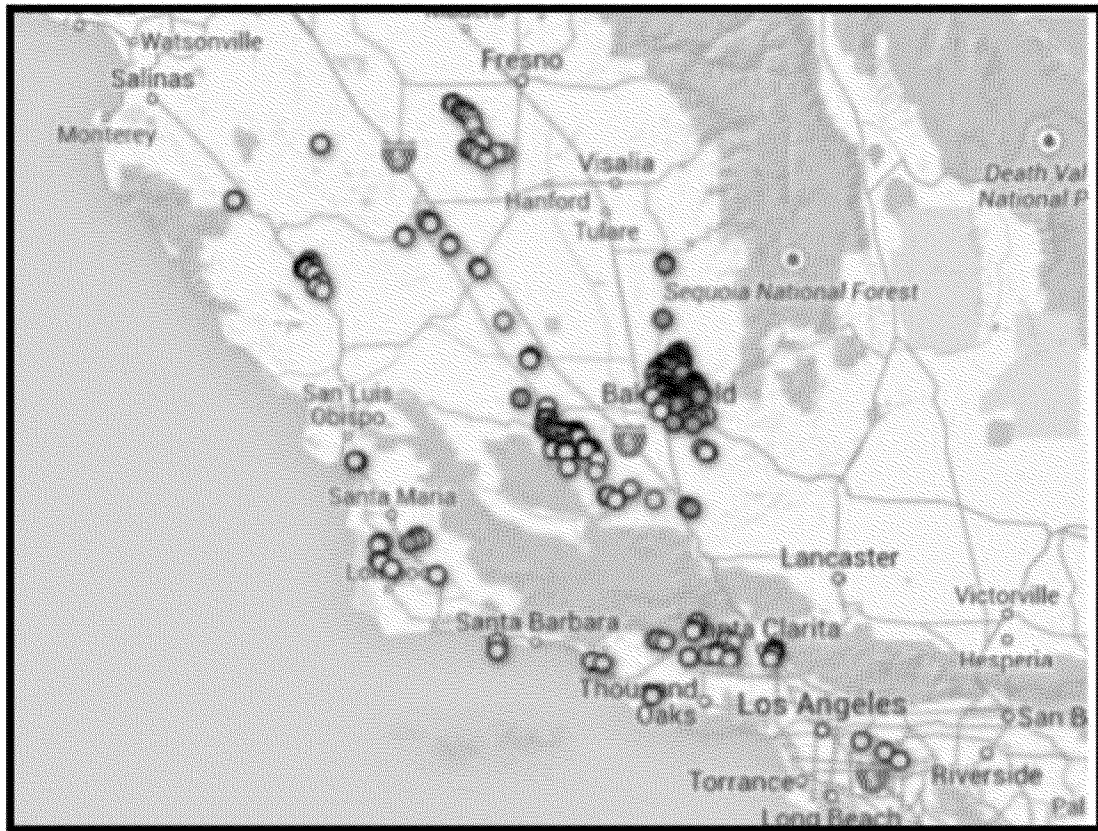

Wells under Investigation

as of August 2014

0-3000 ppm

3000-10000 ppm

unknown

Ok, great. I don't see a CA map like the one David described. I am going to look on the DOGGR website.
